

Coppox[®] Granules

Coppox[®] is the trusted name in copper products.

A new, granule (dry flowable) formulation is now available from all leading retailers...

FEATURES & BENEFITS:

- **Granule / dry-flowable Formulation**
- **OH & S Friendly:** pack sizes are below the recommended 18kg maximum weight. Available pack sizes = 1kg & 15kg
- **Small Particle Size:** leading to better coverage on the plant surface.
- **Minimal Heavy Metal Impurities:** well below the standards set by both the APVMA & World Health Organisation.
- **No nozzle blockages*:** due to excellent suspension & small particle size.
- **Non-corrosive***
- **Cost effective and high quality** fungal disease & bacteria control over an extensive range of fruit, vegetable, tree & nut crops.

* When used as per the directions for use label.
