

DIRECTIONS FOR USE**RESTRAINTS:** DO NOT apply to wet foliage.

CROP	PEST	STATE	CRITICAL COMMENTS
Citrus	Citrus Rust Mite	Qld, NSW, Vic, SA & WA only	Apply from budburst onwards every 7 - 14 days.
Grapes	Powdery Mildew	Qld, NSW, Vic, SA & WA only	Apply from budburst onwards every 7 - 14 days.
Paw Paws		Qld only	Apply from budburst onwards every 7 - 14 days.
Pumpkins, Marrows		Qld, NSW, Vic, SA & WA only	Apply from seedling stage onwards every 7 - 14 days.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**WITHHOLDING PERIODS:**
NOT REQUIRED WHEN USED AS DIRECTED.**GENERAL INSTRUCTIONS:**

Apply the dust lightly and evenly to cover the foliage stems of the plant thoroughly. Rain will remove the dust deposit easily so that a fresh application is required after rain has fallen, as soon as the plants are dry.

Crop Safety:

At temperatures over 24°C there is the possibility of leaf scorching if sensitive plants are treated, therefore reduced dosages are recommended during the hot dry months. Avoid dusting plants under windy conditions or when temperatures exceed 30°C

Caution:

Dust when the air is still. Avoid excessive clouds of the dust as sulphur is very irritating to the eyes.

FUNGICIDE RESISTANCE WARNING**GROUP M2 FUNGICIDE**

For fungicide resistance management the Melpat Dusting Sulphur is a Group M2 fungicide. Some naturally occurring individual fungi resistant to Melpat Dusting Sulphur and other Group M2 fungicides may exist through normal genetic variability in any fungal population. The resistant individuals can eventually dominate the fungi population if these fungicides are used repeatedly. These resistant fungi will not be controlled by Melpat Dusting Sulphur or other Group M2 fungicides, thus resulting in a reduction in efficacy and possible yield loss.

Since the occurrence of resistant fungi is difficult to detect prior to use, Melpat International Pty Ltd accepts no liability for any losses that may result from the failure of Melpat Dusting Sulphur to control resistant fungi.

PROTECTION OF LIVESTOCK:

Low hazard to bees. May be applied to plants at any time.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL:

Store in the closed original container in a dry, cool, well-ventilated area, out of direct sunlight. Store in a separate room away from children and animals.

Shake bag contents out until the bag is empty. Do not dispose of undiluted chemicals on site. Puncture and shred and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

FIRST AID:

If poisoning occurs, contact a doctor or Poisons Information Centre. Telephone: Australia 13 11 26.

MATERIAL SAFETY DATA SHEET:

Additional information is listed in the Material Safety Data Sheet (MSDS) which is available from Melpat International Pty Ltd upon request.

CONDITIONS OF SALE:

1. All goods supplied are made from high grade materials and are believed to be suitable for use.
2. As no control can be exercised over storage, handling or use (and all of which may affect the performance of the goods) NO RESPONSIBILITY for or liability for any failure in performance, losses, damages or injuries (consequential or otherwise) arising from such storage, application, or use will be accepted under any circumstances whatsoever and buyer assumes all responsibility for use of the product.
3. These conditions cannot be modified, varied or waved by our staff, distributors or retailers, whether or not they advise or assist in the storage, handling, mixing or using of the goods, and such persons shall be entitled to the benefit of Clause 2.
4. MAXIMUM LIABILITY: limited to replacement of faulty goods only.
