

Microsul[®] WG Elite

A low-cost, high quality sulphur wettable granule is now available from all leading retailers...

FEATURES & BENEFITS:

- Registered on a range of fruit & vegetables - for specific disease & mite control.
- Has vapour contact action, with residual control.
- Dry flowable granular formulation = minimal dust.
- Excellent dispersion & suspension characteristics.
- OH & S Friendly: available in 2.5kg & 15kg pack sizes.

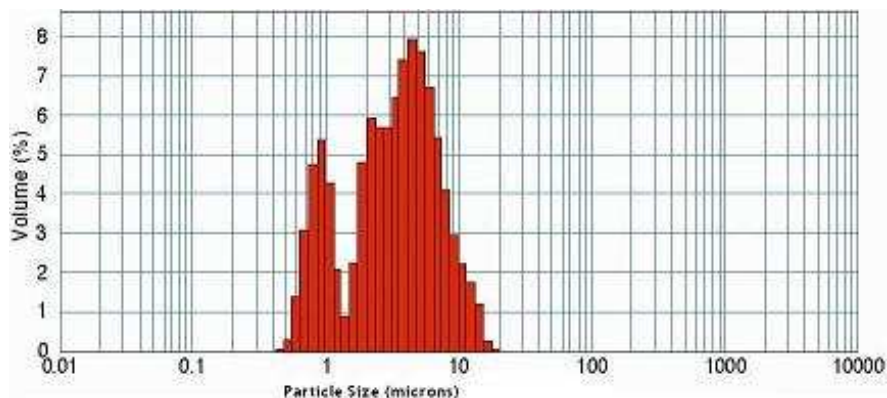

PARTICLE SIZING & MODE OF ACTION:

For optimal disease & pest control, a range of particle sizes is required.

Small particles result in quick vapour release (i.e. immediate effect), whereas the larger particles are effective over a longer period of time.

The particle size analysis of Microsul[®] WG Elite is detailed below:
