

RELEASE NOTE: MELPAT SULPHUR

We are pleased to confirm the following detail in regard to **Melpat SULPHUR**

- Product:** Sulphur
- Specification:** Concentrated formula containing 93% sulphur
- Pack Size:** 15kg (see next page for packaging artwork)
- Packaging:** UN approved paper outer with a polythene (PE) liner.
Strapped and shrink-wrapped on non-returnable treated wooden pallets.
- Pallet Size:** 49 x 20kg in 7 x 7 layers with a net weight of 980kg
Each pallet has the IPPC stamp.
- Availability:** Estimated early-October

In designing and presenting this quality product, emphasis was given to:

- 1. Product Quality and Uniformity:** This product has been specifically designed to meet our standards. It is consistent in quality from batch to batch. ***It is not a traded product*** where product is purchased from whoever is cheapest on the day.
- 2. Pack Size:** We have selected the 15kg pack, which is a lot more convenient for our growers/farmers to handle. This pack size meets the OH & S guidelines.
- 3. Packaging Robustness:** There is nothing more annoying to the Warehouse Manager than to clean up chemical spills. This pack was designed to be robust so as to minimise this risk factor.
- 4. Product Identification:** The product is clearly an agricultural fertiliser – not just “sulphur”. Our company stands by the product’s quality and integrity. If there are any issues we are easily contactable.
